## ABOUT ME

I am a highly motivated and dedicated professional with a strong background in science and technology. With a passion for innovation and problem-solving, I thrive in challenging environments that allow me to push my limits and continuously grow. As a collaborative and open-minded individual, I value teamwork and enjoy working with others to achieve common goals. With my expertise in coding and a natural curiosity for learning, I am always eager to tackle complex problems and find creative solutions. My drive, brightness, and commitment to excellence make me a valuable asset in any project or team.

- Fall Semester 2021
- Geography Faculty of Kabul University
- Volunteer as Computer Instructor
- Taught office packages and Windows operating systems
- Delivered comprehensive lessons on Microsoft Office (Word, Excel, PowerPoint)
- Facilitated practical learning experience for students

## Projects

**15/07/2023 – 01/09/2023**

**MIS** HTML, CSS, and JavaScript are used for front-end development.

HTML structures the content and defines web page elements.

CSS is used for styling and visual design.

JavaScript adds interactivity and dynamic functionality.

Django, a Python web framework, powers the back-end.

Django handles server-side logic, data management, and database integration.

The combination of these technologies creates a dynamic and visually appealing web application with an enhanced user experience.
